

# Software Engineer Internship

AgUnity Pty Ltd

## About Us

AgUnity is an Australian-based technology company founded in 2016 with the ambition to help change the lives of the 1-billion plus low-income farmers in the world. Tackling issues of a lack of trust, corruption & graft, poor record-keeping and farming inefficiencies, AgUnity has developed a smartphone and blockchain-based solution for the world's poorest farmers, a simple mobile app restoring trust and enabling cooperation.

Among many awards and recognition AgUnity was awarded Global Agripreneur of the year 2018 by Future Agro Challenge, and is recognised for its innovation by many leading global NGO's and relevant UN organisations.

## About You

AgUnity is currently working to deliver software for its core product, the AgUnity app, and we require are looking for an intern to join our team and assist on this project. As an early-stage enterprise there is strong focus on delivering rapid prototypes and following an iterative development process. An important value of ours is that one of your personal priorities must be that your work helps make the world a better place.

## Skills & Experience

- Experience or strong desire to work with agile development methodology and DevOps culture
- Experience with web front-end technologies – HTML 5, CSS3, JavaScript, jQuery, Bootstrap, React, Responsive Design & SASS
- Excellent communication skills, both written and verbal
- Problems solving and analytical skills
- Passionate about emerging technologies

## Preferred

- Knowledge of working with web APIs, including both request and streaming variants
- Experience delivering public facing web and mobile applications
- Experience using Adobe Photoshop or other graphic design tools
- Passionate about emerging technologies

**Culture**

AgUnity is building a team of passionate people who care about making a difference; who are open to new ways of thinking; and who are creative, hard-working, and resilient. During your internship, you'll be provided with the opportunity to learn, contribute and evolve as part of a growing and innovative organisation.
