

TALENT FOR BUSINESS GROWTH

Website www.virtualmgr.com

Office Address 16 Nexus Way, Southport, QLD, 4215

Company Overview Virtual Manager is a software company that develops innovative software platforms for businesses to resolve issues such as employee mismanagement, task delegation, labour inefficiencies and asset theft/misplacement. Our software applications ensure that employers are completely compliant within their industry, ultimately minimizing their risk and exposure. We serve a range of industries including commercial cleaning, dangerous goods, environmental services (hospitals), hospitality, human resources, local councils and strata management. Virtual Manager is currently situated in two offices, one on the Gold Coast in Queensland, Australia and the other in Rochester in New York, United States of America. Our Mission is “To create innovative solutions to improve working lives.” We are equal parts innovative and people driven. We value relationships and we make lives easier. Our brand DNA is summed up by two core principles; innovative & customer focused.

Employment Type Internship

Position Title **Junior Developer Intern**

Purpose Despite the crazy COVID19 times, we have a few large opportunities coming in and new website/dashboard projects. We already have a team of internal developers but we still need more amazing development skills to make these projects come to life.

Key Duties

- Working with technical leads across a number of projects
- Utilising Javascript and AngularJS skills to create, enhance and debug dashboards delivered through the Virtual Manager platform
- Working with the implementation team to test and debug existing and new UI developments.
